

Important Message for Parents and Guardians: SGC Elections

To vote in the School Governance Elections this spring you will be required to log in to our system using your Home Access ID and password.

Home Access Center is the Fulton County system to connect parents to student information.

All parents and legal guardians are assigned a username and password. **You must come to the school with a picture ID to pick up your username and password if you have not done so already.** Fulton County policy prohibits any usernames and passwords from being given over the phone or via email. You can pick up your login and password at any school where you have a child in attendance, and if you have multiple children in Fulton County Schools the school can combine all students into a single login.

Please note that if you want to vote in the School Governance Council elections this spring, you must have your own Home Access Center login information. Often family members will share a Home Access Center login instead of signing up individually (for example, husband and wife share a username and password). **The voting system will only allow one vote per username so make sure to sign-up for your own username and password if you want to vote in the elections.**

Note to Prior Home Access Center users: The login and password you received last year is still active as long as you have at least one child enrolled in Fulton County Schools.

For more information on the Home Access Center, you can find detailed documentation on the Parent page of the Fulton County website.
